## **LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE**

Star Telephone Company, Inc. (“the Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which is approved by the Louisiana Public Service Commission (“Louisiana PSC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Louisiana PSC. The Company consistently meets or exceeds those standards and provides reports to the Louisiana PSC, in accordance with the Louisiana PSC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require the Company to publicly disclose information regarding its network management practices, performance, and the commercial terms of its broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011).

## **LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS**

Star Telephone Company, Inc. (“the Company”) is able to function in emergency situations for both voice and broadband service. The Company has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, and mobile generators are at strategic locations to be deployed as needed to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Company is able to reroute traffic around damaged facilities. Although the Company’s ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

## **LINE 1010 – VOICE SERVICES RATE COMPARABILITY**

The Wireline Competition Bureau's 2017 reasonable comparability benchmark for voice services is \$49.51, which includes the federal subscriber line charge ("SLC").<sup>1</sup>

In all of the exchanges served by Star Telephone Company, Inc. ("the Company"), the single-line residential local rate in effect as of January 1, 2017 was \$18.09. When the federal SLC (\$6.50) and state SLC (\$1.00) are included, the total rate was \$25.59. Therefore, the Company's pricing of fixed voice services is less than the reasonable comparability benchmark of \$49.51.

## **LINE 1030 – BROADBAND SERVICES RATE COMPARABILITY**

As of January 1, 2017, Star Telephone Company, Inc. was charging a residential rate of \$75.31 for broadband providing 10 Mbps download, 2 Mbps upload, and an unlimited usage allowance. This rate is lower than \$78.30, which is the 2017 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.<sup>1</sup>

## **LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS**

Residential customers of Star Telephone Company, Inc. (“the Company”) who qualify for the Lifeline Program receive a federal discount of \$9.25 on local voice telephony service.

In all of the Company’s exchanges, the Lifeline single-line residential rate, the federal subscriber line charge (“SLC”) and the state SLC, is \$16.34 (\$25.59 standard rate - \$9.25 discount).

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

Toll charges for calls outside of the local calling area are determined by the long distance carrier of the customer’s choosing. Customers may elect to subscribe to toll blocking at no charge.

The Company does not disconnect the service of Lifeline subscribers for the non-payment of toll charges. However, the Company reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills.

Lifeline Program reductions do not apply to additional services such as custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

## **LINE 3010 – CERTIFICATION OF PUBLIC INTEREST OBLIGATIONS**

Star Telephone Company, Inc. (“the Company”) hereby certifies that the Company has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, and that requests for such service were met within a reasonable amount of time.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.
